

### SECTION 1: Identification of the substance/mixture and of the company/undertaking

#### 1.1. Product identifier

Product form : Mixture  
Product name : BioHygiene High Gloss Floor Polish  
Product code : BH135

#### 1.2. Relevant identified uses of the substance or mixture and uses advised against

##### Relevant identified uses

Main use category : Professional use  
Use of the substance/mixture : Floor Polish

##### Uses advised against

Restrictions on use : Not for oral consumption, Not for direct application to food stuffs.

#### 1.3. Details of the supplier of the safety data sheet

BioHygiene  
Unit A – D 12 , Pant Glas Industrial Estate  
Bedwas  
Caerphilly  
CF83 8GE  
UK  
T +44 (0) 29 2067 4094  
[info@biohygiene.co.uk](mailto:info@biohygiene.co.uk)

#### 1.4. Emergency telephone number

Emergency number : +44 (0) 2067 4094 (8am to 5pm)

| Country/Area   | Organisation/Company      | Address | Emergency number | Comment          |
|----------------|---------------------------|---------|------------------|------------------|
| United Kingdom | NHS 111/NHS 24/NHS Direct |         | 111<br>0845 4647 | or call a doctor |

### SECTION 2: Hazards identification

#### 2.1. Classification of the substance or mixture

##### Classification according to Regulation (EC) No. 1272/2008 [CLP]

Not classified

##### Adverse physicochemical, human health and environmental effects

To our knowledge, the product does not present any particular risk, under normal conditions of use. Presents no particular risk to the environment.

#### 2.2. Label elements

According to EC directives or the corresponding national regulations there is no labelling obligation for this product.  
No labelling applicable

#### 2.3. Other hazards

This mixture is not considered to be persistent, bioaccumulating and toxic (PBT)  
This mixture is not considered to be persistent, bioaccumulating and toxic (PVB)  
Contains no PBT and/or vPvB substances  $\geq 0.1\%$  assessed in accordance with REACH Annex XIII

The mixture does not contain substance(s) included in the list established in accordance with Article 59(1) of REACH for having endocrine disrupting properties, or substance(s) are not identified as having endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at a concentration equal to or greater than 0,1 %

## Safety Data Sheet

According to REACH Regulation (1907/2006) as retained in UK law by UK REACH (SI 2019/758), as amended and EU CLP Regulation (1272/2008) & GB CLP

### SECTION 3: Composition/information on ingredients

#### 3.2. Mixtures

| Name                                                                                | Product identifier                                                     | %         | Classification according to Regulation (EC) No. 1272/2008 [CLP] |
|-------------------------------------------------------------------------------------|------------------------------------------------------------------------|-----------|-----------------------------------------------------------------|
| Dipropylene glycol methyl ether substance with a Community workplace exposure limit | CAS-No.: 34590-94-8<br>EC-No.: 252-104-2<br>REACH-no: 01-2119450011-60 | ≥ 3 – < 5 | Not classified                                                  |

### SECTION 4: First aid measures

#### 4.1. Description of first aid measures

|                                       |                                                                                                                                                                                  |
|---------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| First-aid measures general            | : If you feel unwell, seek medical advice (show the label where possible).                                                                                                       |
| First-aid measures after inhalation   | : To our knowledge, the product does not present any particular risk, under normal conditions of use. Remove person to fresh air and keep comfortable for breathing.             |
| First-aid measures after skin contact | : Wash skin with plenty of water.                                                                                                                                                |
| First-aid measures after eye contact  | : Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. |
| First-aid measures after ingestion    | : Rinse mouth out with water. Call a POISON CENTER/doctor if you feel unwell.                                                                                                    |

#### 4.2. Most important symptoms and effects, both acute and delayed

|                                     |                                                                                                       |
|-------------------------------------|-------------------------------------------------------------------------------------------------------|
| Symptoms/effects                    | : To our knowledge, the product does not present any particular risk, under normal conditions of use. |
| Symptoms/effects after inhalation   | : May cause slight temporary irritation.                                                              |
| Symptoms/effects after skin contact | : May cause slight irritation to the skin.                                                            |
| Symptoms/effects after eye contact  | : May cause slight irritation to eyes.                                                                |
| Symptoms/effects after ingestion    | : May cause irritation to the digestive tract.                                                        |

#### 4.3. Indication of any immediate medical attention and special treatment needed

Treat symptomatically.

### SECTION 5: Firefighting measures

#### 5.1. Extinguishing media

|                              |                     |
|------------------------------|---------------------|
| Suitable extinguishing media | : Dry powder. Foam. |
|------------------------------|---------------------|

#### 5.2. Special hazards arising from the substance or mixture

|                                                  |                                                                |
|--------------------------------------------------|----------------------------------------------------------------|
| Fire hazard                                      | : Not flammable.                                               |
| Explosion hazard                                 | : Product is not explosive.                                    |
| Reactivity in case of fire                       | : Product is not explosive.                                    |
| Hazardous decomposition products in case of fire | : On heating irritating fumes to eyes or skin may be produced. |

#### 5.3. Advice for firefighters

|                                |                                                                                                                                          |
|--------------------------------|------------------------------------------------------------------------------------------------------------------------------------------|
| Protection during firefighting | : Do not attempt to take action without suitable protective equipment. Self-contained breathing apparatus. Complete protective clothing. |
|--------------------------------|------------------------------------------------------------------------------------------------------------------------------------------|

### SECTION 6: Accidental release measures

#### 6.1. Personal precautions, protective equipment and emergency procedures

|                  |                                                 |
|------------------|-------------------------------------------------|
| General measures | : Always wash hands after handling the product. |
|------------------|-------------------------------------------------|

# BioHygiene High Gloss Floor Polish

## Safety Data Sheet

According to REACH Regulation (1907/2006) as retained in UK law by UK REACH (SI 2019/758), as amended and EU CLP Regulation (1272/2008) & GB CLP

### For non-emergency personnel

- Protective equipment : No special requirement . Avoid contact with skin.  
Emergency procedures : Ventilate spillage area. Avoid contact with skin and eyes.  
Measures in case of dust release : Not applicable (aqueous liquid).

### For emergency responders

- Protective equipment : Do not attempt to take action without suitable protective equipment. For further information refer to section 8: "Exposure controls/personal protection".

## 6.2. Environmental precautions

No special environmental precautions required.

## 6.3. Methods and material for containment and cleaning up

- For containment : Collect spillage. Stop leak without risks if possible.  
Methods for cleaning up : Wash the spillage site with large amounts of water.  
Other information : Small amount of unwanted product may be flushed with water to sewer.

## 6.4. Reference to other sections

For further information refer to section 13.

## SECTION 7: Handling and storage

### 7.1. Precautions for safe handling

- Precautions for safe handling : Ensure good ventilation of the work station. Avoid contact with skin and eyes.  
Hygiene measures : Always wash hands after handling the product.

### 7.2. Conditions for safe storage, including any incompatibilities

- Technical measures : Does not require any specific or particular technical measures.  
Storage conditions : Store in a dry place. Store in a closed container. Keep cool.  
Incompatible products : Strong acids. Strong alkalis.

### 7.3. Specific end use(s)

Floor Polish.

## SECTION 8: Exposure controls/personal protection

### 8.1. Control parameters

#### National occupational exposure and biological limit values

| Dipropylene glycol methyl ether (34590-94-8)       |                                  |
|----------------------------------------------------|----------------------------------|
| EU - Indicative Occupational Exposure Limit (IOEL) |                                  |
| Local name                                         | (2-Methoxymethylethoxy)-propanol |
| IOEL TWA                                           | 308 mg/m <sup>3</sup>            |
|                                                    | 50 ppm                           |
| Remark                                             | Skin                             |
| Regulatory reference                               | COMMISSION DIRECTIVE 2000/39/EC  |
| United Kingdom - Occupational Exposure Limits      |                                  |
| Local name                                         | (2-methoxymethylethoxy) propanol |
| WEL TWA (OEL TWA)                                  | 308 mg/m <sup>3</sup>            |
|                                                    | 50 ppm                           |

# BioHygiene High Gloss Floor Polish

## Safety Data Sheet

According to REACH Regulation (1907/2006) as retained in UK law by UK REACH (SI 2019/758), as amended and EU CLP Regulation (1272/2008) & GB CLP

| Dipropylene glycol methyl ether (34590-94-8) |                                                                                                                                                             |
|----------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Remark                                       | Sk (Can be absorbed through the skin. The assigned substances are those for which there are concerns that dermal absorption will lead to systemic toxicity) |
| Regulatory reference                         | EH40/2005 (Fourth edition, 2020). HSE                                                                                                                       |

### DNEL and PNEC

| Dipropylene glycol methyl ether (34590-94-8) |                          |
|----------------------------------------------|--------------------------|
| DNEL/DMEL (Workers)                          |                          |
| Long-term - systemic effects, dermal         | 283 mg/kg bodyweight/day |
| Long-term - systemic effects, inhalation     | 308 mg/m <sup>3</sup>    |
| DNEL/DMEL (General population)               |                          |
| Long-term - systemic effects, oral           | 36 mg/kg bodyweight/day  |
| Long-term - systemic effects, inhalation     | 37.2 mg/m <sup>3</sup>   |
| Long-term - systemic effects, dermal         | 121 mg/kg bodyweight/day |
| PNEC (Water)                                 |                          |
| PNEC aqua (freshwater)                       | 19 mg/l                  |
| PNEC aqua (marine water)                     | 1.9 mg/l                 |
| PNEC aqua (intermittent, freshwater)         | 190 mg/l                 |
| PNEC (Sediment)                              |                          |
| PNEC sediment (freshwater)                   | 70.2 mg/kg dwt           |
| PNEC sediment (marine water)                 | 7.02 mg/kg dwt           |
| PNEC (Soil)                                  |                          |
| PNEC soil                                    | 2.74 mg/kg dwt           |
| PNEC (STP)                                   |                          |
| PNEC sewage treatment plant                  | 4168 mg/l                |

### 8.2. Exposure controls

#### Appropriate engineering controls

##### Appropriate engineering controls:

No special requirement.

#### Personal protection equipment

##### Personal protective equipment:

No special requirement . Avoid contact with eyes. Ensure spraying away from persons.

##### Personal protective equipment symbol(s):

#### Eye and face protection

##### Eye protection:

Eye protection not applicable. Avoid contact with eyes. Ensure spraying away from persons

#### Skin protection

##### Skin and body protection:

No special requirement

# BioHygiene High Gloss Floor Polish

## Safety Data Sheet

According to REACH Regulation (1907/2006) as retained in UK law by UK REACH (SI 2019/758), as amended and EU CLP Regulation (1272/2008) & GB CLP

### Hand protection:

In case of repeated or prolonged contact wear gloves. Always wash hands after handling the product

| Hand protection           |                      |                  |                |             |            |
|---------------------------|----------------------|------------------|----------------|-------------|------------|
| Type                      | Material             | Permeation       | Thickness (mm) | Penetration | Standard   |
| Disposable gloves, Type C | Nitrile rubber (NBR) | 1 (> 10 minutes) |                |             | EN ISO 374 |
| Reusable gloves, Type A   | Nitrile rubber (NBR) | 2 (> 30 minutes) | >0.38mm        |             | EN ISO 374 |

### Other skin protection

#### Materials for protective clothing:

Not applicable.

### Respiratory protection

#### Respiratory protection:

No respiratory protection needed under normal use conditions

### Thermal hazards

#### Thermal hazard protection:

Not required.

### Environmental exposure controls

#### Environmental exposure controls:

No special environmental concerns.

#### Consumer exposure controls:

The substance is not classified for human health hazards or for environment effects and it is not PBT or vPvB so that no exposure assessment or risk characterisation is required. For tasks where the intervention of workers is required, the substance must be handled in accordance with good industrial hygiene and safety procedures.

## SECTION 9: Physical and chemical properties

### 9.1. Information on basic physical and chemical properties

|                                                 |                                             |
|-------------------------------------------------|---------------------------------------------|
| Physical state                                  | : Liquid                                    |
| Colour                                          | : Opaque. Colourless to pale yellow liquid. |
| Appearance                                      | : Liquid.                                   |
| Odour                                           | : Characteristic.                           |
| Odour threshold                                 | : Not available                             |
| Melting point                                   | : Not applicable                            |
| Freezing point                                  | : Not available                             |
| Boiling point                                   | : Not available                             |
| Flammability                                    | : Not flammable                             |
| Lower explosion limit                           | : Not available                             |
| Upper explosion limit                           | : Not available                             |
| Flash point                                     | : Not available                             |
| Auto-ignition temperature                       | : Not available                             |
| Decomposition temperature                       | : Not available                             |
| pH                                              | : 8 – 9                                     |
| Viscosity, kinematic                            | : Not available                             |
| Solubility                                      | : Partially soluble.                        |
| Partition coefficient n-octanol/water (Log Kow) | : Not available                             |
| Vapour pressure                                 | : Not available                             |

### 9.2. Other information

No additional information available

# BioHygiene High Gloss Floor Polish

## Safety Data Sheet

According to REACH Regulation (1907/2006) as retained in UK law by UK REACH (SI 2019/758), as amended and EU CLP Regulation (1272/2008) & GB CLP

### SECTION 10: Stability and reactivity

#### 10.1. Reactivity

The product is non-reactive under normal conditions of use, storage and transport.

#### 10.2. Chemical stability

Stable under normal conditions of use. Do not mix with other products.

#### 10.3. Possibility of hazardous reactions

No dangerous reactions known under normal conditions of use.

#### 10.4. Conditions to avoid

Store away from heat/moisture.

#### 10.5. Incompatible materials

No additional information available

#### 10.6. Hazardous decomposition products

Under normal conditions of storage and use, hazardous decomposition products should not be produced.

### SECTION 11: Toxicological information

#### 11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

Acute toxicity (oral) : Not classified  
Acute toxicity (dermal) : Not classified  
Acute toxicity (inhalation) : Not classified

##### Dipropylene glycol methyl ether (34590-94-8)

|                    |                                                                                                               |
|--------------------|---------------------------------------------------------------------------------------------------------------|
| LD50 oral rat      | > 5000 mg/kg bodyweight Animal: rat, Guideline: OECD Guideline 401 (Acute Oral Toxicity)                      |
| LD50 dermal rat    | > 19020 mg/kg bodyweight Animal: rat, Guideline: OECD Guideline 402 (Acute Dermal Toxicity)                   |
| LD50 dermal rabbit | 9510 mg/kg bodyweight Animal: rabbit, Animal sex: male, Guideline: OECD Guideline 402 (Acute Dermal Toxicity) |

Skin corrosion/irritation : Not classified  
pH: 8 – 9  
Serious eye damage/irritation : Not classified  
pH: 8 – 9  
Respiratory or skin sensitisation : Not classified  
Germ cell mutagenicity : Not classified  
Carcinogenicity : Not classified  
Reproductive toxicity : Not classified  
STOT-single exposure : Not classified  
STOT-repeated exposure : Not classified

##### Dipropylene glycol methyl ether (34590-94-8)

|                            |                                                      |
|----------------------------|------------------------------------------------------|
| NOAEL (oral, rat, 90 days) | 1000 mg/kg bodyweight Animal: rat, Guideline: other: |
|----------------------------|------------------------------------------------------|

Aspiration hazard : Not classified

#### 11.2. Information on other hazards

No additional information available

# BioHygiene High Gloss Floor Polish

## Safety Data Sheet

According to REACH Regulation (1907/2006) as retained in UK law by UK REACH (SI 2019/758), as amended and EU CLP Regulation (1272/2008) & GB CLP

### SECTION 12: Ecological information

#### 12.1. Toxicity

Ecology - general : The product is not considered harmful to aquatic organisms nor to cause long-term adverse effects in the environment.

Hazardous to the aquatic environment, short-term (acute) : Not classified

Hazardous to the aquatic environment, long-term (chronic) : Not classified

#### Dipropylene glycol methyl ether (34590-94-8)

|                                    |                                                                                                                                            |
|------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------|
| LC50 - Fish [1]                    | > 1000 mg/l Test organisms (species): Poecilia reticulata                                                                                  |
| EC50 - Other aquatic organisms [1] | 1930 mg/l Test organisms (species): other aquatic crustacea:                                                                               |
| EC50 72h - Algae [1]               | > 969 mg/l Test organisms (species): Pseudokirchneriella subcapitata (previous names: Raphidocelis subcapitata, Selenastrum capricornutum) |
| EC50 96h - Algae [1]               | > 969 mg/l Test organisms (species): Pseudokirchneriella subcapitata (previous names: Raphidocelis subcapitata, Selenastrum capricornutum) |
| LOEC (chronic)                     | 0.5 mg/l Test organisms (species): Daphnia magna Duration: '22 d'                                                                          |
| NOEC (chronic)                     | ≥ 0.5 mg/l Test organisms (species): Daphnia magna Duration: '22 d'                                                                        |

#### 12.2. Persistence and degradability

##### BioHygiene High Gloss Floor Polish

|                               |                        |
|-------------------------------|------------------------|
| Persistence and degradability | Readily biodegradable. |
|-------------------------------|------------------------|

##### Dipropylene glycol methyl ether (34590-94-8)

|                               |                        |
|-------------------------------|------------------------|
| Persistence and degradability | Not rapidly degradable |
|-------------------------------|------------------------|

#### 12.3. Bioaccumulative potential

##### BioHygiene High Gloss Floor Polish

|                           |                                                                                                                  |
|---------------------------|------------------------------------------------------------------------------------------------------------------|
| Bioaccumulative potential | The product is miscible in water and readily biodegradable in both water and soil. Accumulation is not expected. |
|---------------------------|------------------------------------------------------------------------------------------------------------------|

#### 12.4. Mobility in soil

No additional information available

#### 12.5. Results of PBT and vPvB assessment

##### BioHygiene High Gloss Floor Polish

|                                                                                  |
|----------------------------------------------------------------------------------|
| This mixture is not considered to be persistent, bioaccumulating and toxic (PBT) |
| This mixture is not considered to be persistent, bioaccumulating and toxic (PVB) |

#### 12.6. Endocrine disrupting properties

Adverse effects on the environment caused by endocrine disrupting properties : The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

#### 12.7. Other adverse effects

Other adverse effects : No adverse effects known.

#### 14.6. Special precautions for user

##### Overland transport

Not applicable

##### Transport by sea

Not applicable

##### Air transport

Not applicable

##### Inland waterway transport

Not applicable

##### Rail transport

Not applicable

#### 14.7. Maritime transport in bulk according to IMO instruments

Not applicable

### SECTION 15: Regulatory information

#### 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

##### EU-Regulations

##### REACH Annex XVII (Restriction List)

Contains no substance(s) listed on REACH Annex XVII (Restriction Conditions)

##### REACH Annex XIV (Authorisation List)

Contains no substance(s) listed on REACH Annex XIV (Authorisation List)

# BioHygiene High Gloss Floor Polish

## Safety Data Sheet

According to REACH Regulation (1907/2006) as retained in UK law by UK REACH (SI 2019/758), as amended and EU CLP Regulation (1272/2008) & GB CLP

### REACH Candidate List (SVHC)

Contains no substance(s) listed on the REACH Candidate List

### PIC Regulation (Prior Informed Consent)

Contains no substance(s) listed on the PIC list (Regulation EU 649/2012 concerning the export and import of hazardous chemicals)

### POP Regulation (Persistent Organic Pollutants)

Contains no substance(s) listed on the POP list (Regulation EU 2019/1021 on persistent organic pollutants)

### Ozone Regulation (2024/590)

Contains no substance(s) listed on the Ozone Depletion list (Regulation EU 2024/590 on substances that deplete the ozone layer)

### Council Regulation (EC) for the control of dual-use items

Contains no substance subject to the COUNCIL REGULATION (EC) for the control of dual-use items

### Explosives Precursors Regulation (2019/1148)

Contains no substance(s) listed on the Explosives Precursors list (Regulation EU 2019/1148 on the marketing and use of explosives precursors)

### Drug Precursors Regulation (273/2004)

Contains no substance(s) listed on the Drug Precursors list (Regulation EC 273/2004 on the manufacture and the placing on market of certain substances used in the illicit manufacture of narcotic drugs and psychotropic substances)

### National regulations

UK HSE EH40 workplace exposure limits

Regulation (EC) 1907/2006 - REACH (UK amended)

## 15.2. Chemical safety assessment

No chemical safety assessment has been carried out

## SECTION 16: Other information

### Abbreviations and acronyms:
