

More comfort less fatigue

The Swann-Morton range of Ergonomic handles - designed for comfort of grip whilst minimising fatigue during use

The Swann-Morton Ergonomic handles are designed to maximise performance and feature a textured surface finish for ease and comfort of grip whilst minimising fatigue.

These ergonomically designed handles are used in a Histology, Pathology to Autopsy and Laboratory settings and can be autoclaved to avoid any cross contamination of samples. The handles are also colour coded for ease of recognition.

ONE OF THE WORLD'S LEADING SURGICAL BLADE MANUFACTURERS

The Black No.5 Ergonomic Handle (1003) is compatible with any of the blade shapes included in the No.3 fitment range such as the 10 and 15 whilst the Maroon No.6 Ergonomic Handle (1004) is compatible with any of the blade shapes included in the No.4 fitment range such as the 22 and 24. Finally there is the Grey No.8 Ergonomic Handle (2618) which is compatible with the pathology/autopsy blades PM60 and PM60 bull nose.
